Providing a Future Beyond the Finish Line

After the Finish Line assists The Exceller Fund in Providing a Future Beyond the Finish Line for Racing Warriors!

Lexington, KY – The Exceller Fund (TEF) has received a \$3200 grant from After the Finish Line (ATFL) to aid in the care of three Racing Warriors. ATFL is dedicated to educating the public about the health, protection, preservation and alternative career options of Thoroughbred racehorses once their racing or breeding careers are over.

TEF launched the Racing Warrior Campaign in 2011 in order to bring awareness to the plight of Thoroughbreds that have spent years on the track. Currently, they have approximately twenty of these special horses in their care.

“While many Racing Warriors do retire relatively sound, they are not appealing to many adopters due to the wear and tear on their bodies from strenuous, prolonged racing careers,” Volunteer Executive Director Nicole Smith commented. “Therefore, we offer them lifetime retirement if an appropriate home cannot be found.”

There are three Racing Warriors benefiting from the grant given by ATFL. They are all permanent retirees and will remain in the care of TEF, unless they are re-homed as companions.
