A salute to America's Heroes
and the horses that help them

The Exceller Fund is honored to have several of their Racing Warriors participating in Hooves on the Ground, which is offered by The Right Path, a member center of the Professional Association of Therapeutic Horsemanship, International.

The program is designed to benefit veterans dealing with issues related to emotional and/or physical wounds suffered as a result of their military service by allowing them to experience the unique partnership in equine activities.

In recent years, TEF launched its Racing Warrior Campaign, focusing on Thoroughbreds with at least fifty starts. These are not your typical retirees; they are Racing Warriors with stories of hard knocking careers and strong work ethics. While they are often labeled as unusable and overlooked by adopters due to age or wear and tear from years on the track, they continue to prove their worth every day.

Sonofaqueen ("Prince") became a fast favorite among the veterans participating in the Hooves on the Ground program.

Sonofaqueen, a Racing Warrior belonging to The Exceller Fund, has become a fast favorite among the veterans in the Hooves on the Ground program. Despite earning over \$350,000 in 71 starts, the aged Thoroughbred (fondly referred to as Prince), found himself standing quietly beside a slaughter bound truck. Fortunately, his journey would not end when he stepped off the next trailer. Instead he would begin making a difference in the lives of America's heroes.
